Wish Story:

Make-A-Wish Foundation® of India volunteers met 11 years old Dasathayamma, suffering from life threatening illness and receiving treatment for the same at Adyar Cancer Institute in one of their wish granting sessions.

She loves to go to school, but because of the continuous and painful treatment she has dropped out from school. "I miss my friends a lot, I wish I get cured soon and go back to my home town" says Dasthayamma.

She is a very reserved and quiet girl. She is more on the passive side and doesn't talk much. So, it was difficult for the Foundation volunteers to coax wishes out of her. But when the volunteers made her feel comfortable by spending more time with her and asking more about her friends and school, she opened up and shared that she wishes To Have a Cycle.

With the help of our donor PPN Power Generating Pvt Ltd, we were able to fulfil Dasthayamma's wish to have a Cycle. Make-A-Wish Foundation[®] of India thought of elating the little kid by gifting her some toys as an enhancement. She was more than happy to receive and she joyfully posed for a picture.

"We are so happy to see our daughters wish has come true, For a very long time she has been asking us for a cycle but we couldn't afford to buy her one. Thank you Make A Wish for fulfilling our daughter's wish" says Dasthayamma's mother.
